

# Fully Licensed Music for Restaurants

## Increase sales and engage staff

Find your restaurant's soundtrack in the world's largest collection of music for business, with over 50 million songs. An online streaming service, Soundtrack easily scales across multiple locations or areas within a single restaurant. It's music at the touch of a button.

Association members receive an exclusive 10% off the subscription price and a 30-day free trial.

### Use the experts or create your own sound

Get music for the week in a single click. Soundtracks are large collections of songs built around specific genres and other sound characteristics to provide a consistent, targeted experience.

Choose from hundreds of soundtracks created by our music experts or create your own by clicking on sound tags or entering an artist's name.

### Get ASCAP + BMI for less

Save money and stop worrying about fines. All music played through Soundtrack is fully licensed to play in your restaurant; ASCAP and BMI fees are included in the subscription price at significant savings.

### Save time with smart tools

- Schedule music down to the quarter hour to match the changing tempo of the day
- Keep your restaurant family-friendly by activating the explicit-content filter
- Control the music across all of your locations from a central dashboard
- Give staff the right amount of local control to adjust volume, skip tracks, and share songs with customers

Music that **works** for your customers, your staff, and the artists.
